

STATE'S GOALS AND PLANS REGARDING DISTRIBUTION OF FUNDS RECEIVED UNDER TITLE VI, PART B

Plans for distributing funds received under Title VI-B include the following:

1. The 5% of VI-B dollars which can be used for administrative expenses will be used primarily to provide training and technical assistance to staff providing supported employment services. The remaining 95% is distributed to all District Offices for direct consumer services.
2. All DVR offices also have fee for service contracts with non-profit rehabilitation facilities and other agencies for the provision of time-limited supported employment services. When clients consumers clearly meet the requirements of the federal definition for supported employment, Title VI-B funds are used to purchase the individual services necessary to achieve successful outcome.

Title VI-B funds cover approximately 30% of the total agency dollars WDVR expended on supported employment clients. WDVR will continue to supplement, as needed, additional supported employment.

DVR will continue to collaborate with state, county and local governmental agencies and other appropriate partners to explore ways to improve services and obtain additional funds to serve eligible consumers needing supported employment and extended services.
